1	Draft guideline	11	21	Medicines Use Reviews are no commissioned from the national community pharmacy contractual framework. Whilst these may be commissioned locally, they are no longer common opportunities to raise vaccination. This point may benefit from referencing the new Discharge Medicines Service and the Community Pharmacist Consultation Service.
2	Draft guideline	15	20	Given these patients may be unfamiliar with UK practice, there may be value in highlighting that vaccination is free of charge.
3	Draft guideline	17	25	Invitations to patients should take the opportunity to highlight all avenues and routes to vaccination. For example, communications should include reference to alternate providers locally such as community pharmacies. This will maximise contact with the patient and overcome any initial barriers – such as location preference.
